#### Statement of the Board Chairman

Honourable Shareholders,

On behalf of the Board of Directors and myself, I am delighted to report the record high profit which is a mark of success of our Bank in the fiscal year 2013/14.

The world economy has undergone significant recovery with the momentum from advanced economies. According to the report by IMF, there is positive expectation on the growth of global output and world trade volume in the current year. As to the domestic economy, the continued growth of GDP, single digit inflation rate, positive results in achieving the GTP, growing interest of foreign investors in the economy, progress with the construction of the Ethiopian Renaissance Dam and extensive infrastructure development have mainly characterized the macro situation. The positive developments are indeed uplifting. In the task environment, i.e. the financial sector, though there was no new bank that joined the market, the competition among the existing ones is observed to be stiffening particularly in expanding outreach with the main focus of capturing a good share of the fundamental resource, deposit and bringing financial services to the unbanked individuals. The effect of which is not limited to increasing the resource base of individual banks only but also has resulted in boosting the share of domestic savings to GDP, which is stunning and encouraging. They say "Effort will lead to performance, performance will lead to valued rewards." In view of this, the determined efforts of banks in adopting alternative channels not only enhance accessibility to financial services but also will make service delivery efficient and cost effective. This in turn will aid the evolution towards digital banking, which is rewarding. Eventhough there is continued success through meticulous planning, in every field of endeavour there are varied problems and opportunities. Similar to the previous year, our operation has passed through challenges of diverse causes. Despite the magnitude and nature of challenges faced, including increasing competition, and other unforseen situations, our Bank has managed to earn total revenue of Birr 2.14 billion, which is an increase of 18.1% when compared with the performance of the preceding year. On the other hand, the total expenses reached Birr 1.2 billion, an increase of 18.3%. Thus, our Bank has attained a record high profit before tax of Birr 957.6 million, which is a 17.8% growth over the result attained in the preceding year. Hence, the Bank has paid into the Government coffers Birr 245.1 million in the form of profit tax alone. The earnings per share stood at Birr 670.

The primary capital of the Bank has also increased to two billion Birr showing an adequate capital position that stood above the minimum threshold set by the regulatory body. At this moment, on behalf of the Board of Directors, I take the opportunity to extend my gratitude to the shrareholders of the Bank who straightforwardly comprehend the significance of maintaining adequate capital, and thereby positively deciding on reinvesting portion of their dividend payment.

In the year under consideration, our Bank has embarked upon different projects with the aim of improving our service efficiency, adopting a modern resource management practice, branding and implementing alternative channels of financial service delivery. The culmination of which will enhance our competitive edge and thereby contentment of our esteemed customers. Similarly, after firm and long years of sustained effort, the Bank has managed to win the confidence of American Express and concluded an agreement to start both the acquiring and issuing of Amex branded cards. This is an added milestone and chronological step in the history of modern banking in this Great Nation that is

made possible by our Bank. The other achievement worth mentioning is that our Bank has got permission from the regulatory body to implement Mobile and Agent Banking Services. Correspondingly, Dashen has commenced the pilot testing of the internet banking service.

Our Bank has also continued its strategic move in investing on own buildings. The construction of the Head Office Complex and its Annex is progressing while that of the construction of three buildings, two at Lideta and one at Saris areas, are completed in the year under consideration. The Bank has also bought five buildings of which three are in Addis Ababa, one in Harar and one in Kombolcha. This will make the total number of own buildings 29. Moreover, the constructions of two buildings at Arat Kilo and Arba Minch have commenced.

The record high result, which we believe is to the satisfaction of our stakeholders, could not have been possible without the focus of the Board, strategic leadership of the management team and ardent contribution of the entire staff of our Bank. In consideration of well demonstrated commitment and result oriented efforts and the market situation, the Board has implemented motivational

considerations. On behalf of the Board of Directors and myself, I would like to extend appreciation and recognition to the entire staff and management of our Bank for the job well done. There is nothing static, as they say "It is not the strongest of the species that survive, nor the most intelligent, but the one most responsive to change". Everyone in Dashen is ready, positive and forward looking for a change, among the many with a special attention to technology and customer services.

Lastly, on behalf of the Board and myself, I also seize this opportunity to sincerely express our appreciation and gratitude to all stakeholders who have been relentlessly supporting and encouraging us in our journey to proving unparalleled. Our exceptional gratefulness goes to our valued customers for their unwavering confidence, feedbacks and backing; respected shareholders, for their confidence, encouragement, and insightful decision; the National Bank of Ethiopia for their accompaniment and professional guidance; Board Directors and non-director members of Board Committees for their devotion, valuable contribution, strong team spirit and commitment; the management and staff of the Bank for their unified effort, concern, belongingness and meaningful contribution in the path of proving unparalleled.

Thank you,

Teklu Haile

Chairman, Board of Directors September 25, 2014

7

## The President's Message

The financial result of our Bank for fiscal year 2013/14 shows resilience in the face of daunting challenges as we registered a record high bottom-line. The result witnesses our enduring commitment to set new heights in our endeavor to maximize the return on shareholders' investment by delivering better value to customers. It is on this note that I present a review of the performance of our Bank in the fiscal year ended June 30, 2014.

In 2013 and the first half of 2014, global growth continued to face headwinds. Most developed economies continued struggling in an uphill battle against the lingering effects of the financial crisis, grappling in particular with the challenges of taking appropriate fiscal and monetary policy measures. Some signs of improvements have shown up more recently: the euro area has finally come out of a protracted recession, with gross domestic product (GDP) for the region as a whole returning to growth. Another positive development had been that a few large emerging economies, including China, seem to have prevented a further slowdown and are poised to strengthen.

During the reporting period, the Ethiopian economy continued to experience robust growth. The expansion in economic development has contributed to poverty reduction and progress toward achieving the Millennium Development Goals. Measures taken to maintain inflation within single digit levels have proved successful as the year-on-year general inflation stood at 8.5% in June 2014.

Concerning the banking industry, the sustained constraints have intensified competition as banks struggle to attract more of the available scare resources and diversify revenue streams through new product introductions. Investment on new products, technology, channels, and talent has soured as banks thrive with market share and growth. The industry is paying dearly for market expansion as rental costs are skyrocketing. On a positive note, accessibility of financial services has improved tremendously with the aggressive branch expansion strategy banks are pursuing.

Withstanding the challenges, Dashen concluded the 2013/14 fiscal year operation with profit before tax of Birr 957.6 million, higher than last year by Birr 144.7 million or 17.8%, which once again confirms the Bank's stability and strength. The Bank's total assets grew by 11.3% and reached Birr 22 billion. Total outstanding loans and advances amounted to Birr 9.4 billion, recording growth of 8.9% compared with last year. As for deposits, we closed the year with the amount of Birr 17.7 billion, which reflected 11.5% growth over the previous year's record. On the basis of these key performance indicators, Dashen Bank has thrived to maintain its market share and preserve the position it has in the industry.

Thanks to the unwavering commitment of its shareholders, the Bank's paid-up capital was further strengthened in 2013/14 with additional injection of Birr 327 million, and scored Birr 1.1 billion, an impressive 44.3% growth over the previous year.

Poised for growth and sustainability, we have been expanding to new markets while intensifying our penetration in existing ones. In the reporting period, additional 30 Area Banks were opened in Addis Ababa and regional towns, raising the network of our service delivery outlets to 138. Area Bank expansion endeavors have been challenged by soaring rental costs. To circumvent the situation and enhance ambience of our service environment, we have continued investing on own buildings.

Pushing forward our multichannel strategy, we have invested heavily on our self-serving channels,

including ATMS and POS terminals. Accordingly, our card acceptance network has further expanded to 170 ATMs and 827 POS terminals. With increased outreach, our customer base has been expanding. By the end of fiscal year 2013/14, the number of accountholders has exceeded 1.2 million. One out of four accountholders has subscribed for card banking service.

In the reporting period, strategic partnership has been forged with American Express (Amex), which will be the fourth international card network that Dashen associated with since the time we pioneered card banking in Ethiopia. We will soon start accepting and issuing Amex cards with new value propositions. Dashen has also concluded agency agreement with some of the leading international money transfer brands, including EzRemit, FloCash and TransFast. We are also finalizing preparations to start Internet, Mobile, Agent and Interest Free Banking services. While the former is in the testing stage at the moment, the latter three will reach customers midway through the current fiscal year.

We are committed as ever to prove unparalleled in banking services in Ethiopia through the application of appropriate technology. In this regard, earlier efforts to streamline operations and enhance customers' experience at our Area Banks by adopting One Window Service have been intensified.

Among our strategic priorities has been modernization of resource management, upon which we were heavily engaged in the review period by hiring the services of a renowned consultancy firm.

What we achieved in the fiscal year was attributed to the continued support of our stakeholders. I shall thank our shareholders, customers and partners for bestowing their confidence on us. The guidance and support of the Board of Directors has been instrumental for the results achieved and I owe them heartfelt gratitude. I and my colleagues are indebted to the continued guidance of the National Bank of Ethiopia and unrelenting support of Ethio Telecom. We are also grateful to all other government authorities, financial institutions and correspondent banks abroad for their collaboration. Let me also express my deep appreciation to the entire staff members of Dashen for their dedication and commitment to the Bank's growth.

Thank You,

Berhanu W/Selassie President September 25, 2014

## Board of Directors' Report

The Board of Directors of Dashen Bank S.C. presents the Annual Report of the Bank for the fiscal year ended 30 June 2014. The performance of the Bank during 2013/14 fiscal year is summarized hereunder.

#### **OPERATIONAL HIGHLIGHTS**

#### **Deposit Mobilization**

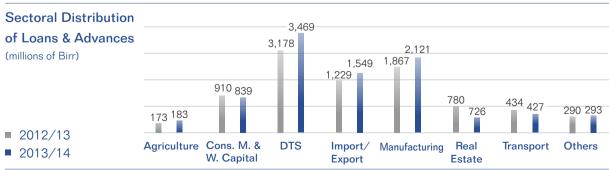

The investment on Area Banks expansion has been driving growth in deposits in spite of the intense competition being observed in the industry as banks scramble for resources. The deposit balance of the Bank surged by 11.5% over the previous year's level and reached Birr 17.7 billion as at 30 June 2014. The corresponding number of customers maintaining deposit account with the Bank has exceeded 1.2 million soaring by 15.8% on top of the previous year's level.

Customers' savings contribute the lion's share to the Bank's deposit balance, giving solid assurance on the stability of our funding source. Looking at the composition, savings comprised 67.3% of the aggregate balance, whereas the rest was shared between Demand and Fixed Time deposits, each comprising 26% and 6.7% of the total deposits, respectively.

#### Loans and Advances

Outstanding loans and advances went up to Birr 9.4 billion as at 30 June 2014, which represents an 8.04% increase over the previous year. The distribution of loans and advances covered all major economic sectors. Domestic Trade and Services ranked in the lead with a 36.1% share while the Manufacturing sector stood second with a 22.1% share from the aggregate balance. Foreign Trade, Construction Machineries Rental and Working Capital, and Real Estate sub-sectors comprised 16.1%, 8.7% and 7.5% of the outstanding loans and advances balance, respectively.

'Others' include advances on L/C, personal loans, staff housing loans, and loans in litigation.

#### **International Banking**

In the period under review, particular emphasis was accorded for foreign currency generation. Efforts made in this regard have brought encouraging results. To boost foreign currency generation through remittances, partnership has been signed with some of the biggest international money transfer operators, including EzRemit, FloCash, and TransFast. The new additions, together with the already existing ones, have enhanced customers' choice for incoming international remittances.

As part of a continued endeavor to come across with the best avenues for our customers engaged in international trade, we have expanded the number of correspondent banks with which we have established SWIFT Bilateral Key Exchange arrangement to 471. By the end of the reporting period, Dashen Bank's correspondent banking relationship through SWIFT covered 166 cities in 70 countries.

#### **E-Banking Services**

The industry is witnessing growing competition in e-banking services. We are investing on card acceptance network expansion to capitalize on our first mover advantage. Accordingly, we have deployed additional 65 ATMs, which raised the network to 170. During 2013/14 fiscal year, 48,107 customers joined the service, bringing the total number of cardholders to 303,040.

Furthering our competitive edge in the card business, we have established strategic partnership with American Express, which is one of the major international card networks. The exclusive agreement allows Dashen to accept and issue Amex cards in Ethiopia. Using our experience in the card business, the new Amex cards will be marketed with new value propositions targeting various customer segments.

Card banking remains to be one of the key sources of foreign currency. In the reporting period, the Bank generated USD 95.1 million from international cards (VISA, MasterCard and UnionPay cards), which is a little higher than the USD 93.9 million we managed to garner in the previous year.

American Express is welcome in Ethiopia exclusively through Dashen Bank Network.

Now we accept more international cards than anyone else.

#### FINANCIAL PERFORMANCE

#### **Income Analysis**

Driven by robust growth in earnings from foreign operations, the Bank's revenue grew by 18.1% over the previous year level of Birr 1.8 billion and exceeded Birr 2.1 billion. Income generated from fee-based / non-interest income banking services surged by 26.1% on top of the previous year's figure and contributed for 46.8% of the aggregate income in 2013/14. Compared with last year, interest income from loans and advances also grew by 12%.

# Easy, whenever, wherever.

Dashen Bank services are online.

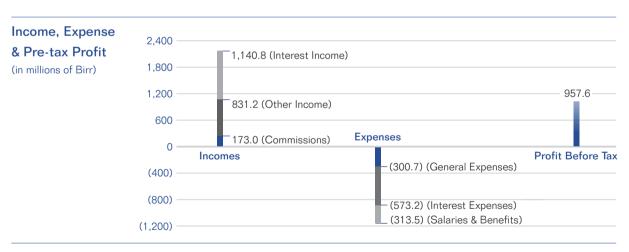

#### **Expense Analysis**

The total expenses of the Bank went up to Birr 1.2 billion, recording 18.3% growth over the previous year level of Birr 1.0 billion. Driven by an 11.5% growth in deposits, interest expense soared by 17%. Similarly, employees' salaries and benefits and other operating costs have shown significant surge following the expansion strategy aggressively pursued in the reporting period. As commercial banks continue the battle for market share, branch expansion has had its detrimental impact on rental costs, which surged by 29.9% in our case.

#### **Summary of Earnings**

Profit before tax recorded for the year ended 30 June 2014 amounted to Birr 957.6 million, which represents a 17.8% growth over the previous year's figure of Birr 812.9 million. With this, Dashen proved to be the most profitable private bank. Earnings per share for the year turned out to be Birr 670.

#### SERVICE OUTLETS EXPANSION

Market expansion has been at the top of our strategic priorities in the reporting period. As a result, the aggressive Area Bank expansion spree that started in 2012/13 continued in the reporting period in full swing. Thirty new Area Banks were opened, which raised our network to 138 by the close of the reporting period. In terms of geographic distribution, 13 out of the 30 Area Banks went operational in regional towns, while the remaining 17 Area Banks commenced operation in the Capital, Addis Ababa.

#### RISK MANAGEMENT AND COMPLIANCE

Risk management and compliance has continued taking center stage in our daily activities. In the reporting period, the Bank has undertaken credit, operational and liquidity risk assessments in line with NBE's guidelines. Policies and procedures required to handle the risk management and compliance process have also been revised and updated.

Furthermore, reputational risk assessment has been carried out focusing on major stakeholders. Aimed at raising awareness on risk management and compliance, and Anti-Money Laundering/Combating the Financing of Terrorism (AML/CFT), intensive sensitization programs were also run during the period under review.

#### **HUMAN RESOURCE DEVELOPMENT**

The remarkable success so far registered is a testament to the dedication and commitment of employees and the human capital investments we are making. In appreciation of the contribution of the entire work force for the continued growth of the Bank and to ensure competitiveness in remuneration, the Board has approved revised salaries and benefits package to be implemented starting from July 2014. Furthermore, it is the Bank's goal to create a work environment that is focused on results. In this regard, the Bank will continue to improve its performance measurement process and instill a culture of reward and recognition for outstanding performance.

With regards to human capital development, various in-house and external (both at home and abroad) trainings were arranged that benefited 1,670 staff in different capacities. Furthermore, education assistance has also been given to staff that have been pursuing further education at various levels.

At the end of June 30, 2014, the staff strength of the Bank, including short and long term contract employees, stood at 4,284.

#### CONSTRUCTION OF OWN BUILDINGS

In a bid to circumvent rising rental costs and diversify investment portfolios, we have continued our investment on own buildings. The investment in this regard is also expected to facilitate operations, improve customers' in-branch experience, and create better work environment for employees. Furthermore, it is a venue to contribute our due share to transform the urban landscape of the Capital and regional towns. So far, nineteen of our Area Banks are housed in own buildings, constructed or acquired. In the reporting period, office buildings of Gondar, Dire Dawa and Debre Berhan Area Banks' were colorfully inaugurated. Construction works of Area Bank offices for Arba Minch, two sites at Lideta and the Head Office complex are nearing their completion, while construction of two office buildings at Lideta and another one at Saris have already been finalized.

#### BUSINESS DEVELOPMENT AND BRAND VISIBILITY

Initiatives to improve customers' experience and streamline operations have continued. One Window Service supported by Queue Management System has been implemented in prioritized Area Banks. The service is being expanded to cover all Area Banks.

With the aim of delivering a more accessible and effective service to the wider segment of the society through innovative channel alternatives, we have finalized preparations to introduce internet, mobile, agent, and interest-free banking services.

In the reporting period, particular emphasis has been placed on brand visibility, marketing and communication as we seek to reinvigorate our brand and enhance effectiveness of our communication with customers and other stakeholders.

#### **CORPORATE GOVERNANCE**

We maintain high standards of corporate governance and comply with the required prudential guidelines and other statutory requirements. Dashen Bank continues to review its compliance and risk management framework, systems and processes and, where appropriate, attempts to enhance these further. We thrive to act with integrity and transparency towards all stakeholders.

#### CORPORATE SOCIAL RESPONSIBILITY

We are committed to the principles of responsible corporate citizenship and take pride from our active engagement in supporting social and economic development of the communities we operate in. Being one of the major corporate entities operating in the domestic economy, our business activities have been impacting lives positively. In the review period alone, we have created employment opportunities for 594 citizens, while channeling more than Birr 245.1 million to the government coffer in the form of corporate profit tax. We have also invested a staggering Birr 4.1 billion in government bonds as of 30 June 2014.

Thank You.

Teklu Haile

## Auditors' Report

## INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF DASHEN BANK SHARE COMPANY

#### Report on the Financial Statements

We have audited the accompanying financial statements of Dashen Bank Share Company set out on pages 20 to 33. These financial statements comprise the statement of financial position at 30 June 2014, the profit and loss account and a statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

#### Respective responsibility of directors and auditors

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with Generally Accepted Accounting Principles and the relevant legal and regulatory requirements. Their responsibilities include: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

Our responsibility is to express an opinion on the financial statements based on our audit.

#### Basis of audit opinion

We conducted our audit in accordance with Generally Accepted Auditing Standards. Those standards require that we comply with ethical requirements and plan and perform our audit to obtain reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, compliance with the relevant legal and regulatory requirements as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Opinion

In our opinion, the accompanying financial statements give a true and fair view, in all material respects, of the state of the Dashen Bank Share Company's financial affairs at 30 June 2014 and of its financial performance and cash flows for the year then ended in accordance with Generally Accepted Accounting Principles.

We have no comment to make on the report of the board of directors; and in accordance with Article 375 of the Commercial Code of Ethiopia of 1960, recommend acceptance of it, and approval of the financial statements.

#### 1.ESTABLISHMENT

The Bank is a privately owned company established in 1995 in accordance with the "Licensing and Supervision of Banking Business" Proclamation No. 84/1994, now superseded by Proclamation No. 592/2008, "A Proclamation to Provide for Banking Business" to undertake commercial banking activities.

The Bank obtained its license from the National Bank of Ethiopia (NBE) on 20 September 1995 and started normal business activities on 1 January 1996. It operates through its Head Office in Addis Ababa and 133 Area Banks, 5 Foreign Exchange Bureaus, 827 Point of Sale (PoS) terminals and 170 Automatic Teller Machines (ATMs) located in and outside Addis Ababa.

#### 2.ACCOUNTING POLICIES

The significant accounting policies adopted by the Bank are summarized hereunder:

#### a) Accounting convention

These financial statements are prepared under the historical cost convention and generally accepted accounting principles.

#### b) Interest income and expenses

Interest income and interest expense are recognised on the accrual basis, except for interest on past due loans and advances and advances against import bills, which are recognised on the cash basis.

#### c) Conversion of foreign currencies

- (i) Foreign currencies denominated transactions are converted into Birr at the prevailing rates of exchange and realized foreign exchange gains and losses are reflected in the profit and loss account.
- (ii) Year—end balances of foreign currencies on hand and with correspondent banks are translated into Birr at the mean of the buying and selling rates ruling at the balance sheet date and gains and losses are reflected in the profit and loss account.

#### d) Provision for doubtful loans, advances and claims

The provision for doubtful loans, advances and claims is maintained at a level adequate to cover possible losses. Management determines the adequacy of the provision based upon reviews of individual borrowers and claims accounts and other related factors pursuant to the relevant Directives of the National Bank of Ethiopia.

Currency: Ethiopian Birr

#### 2. ACCOUNTING POLICIES (Continued)

#### e) Fixed assets

Fixed assets are stated at cost, net of depreciation calculated on the following bases at their respective rates per annum:

i)Buildings are depreciated based on the straight-line method at 5% per annum.

ii) The following categories of business assets are depreciated based on the declining balance method:

Furniture and fixtures	20%
Office and other equipment	20%
Motor vehicles	20%
Computer hardware and software	25%

The depreciation base is the opening book value balance of each asset category plus cost of assets acquired during the period minus net book value of assets disposed off.

#### f) Leasehold land

Leasehold land is recognised as an asset to the extent of payment(s) made and is amortised over the lease period. Lease liability is disclosed.

#### 3. CASH ON HAND

	2014	2013
Local currency	1,382,915,527	1,055,997,572
Foreign currencies	41,184,244	61,616,790

d. The unutilised balances of overdraft facilities granted to customers as at 30 June 2014 amounted to Birr 785,642,393 (2013 – Birr 591,549,000).

#### 22. EMPLOYEES' BENEFITS SCHEMES

The Bank administers a contributory provident fund scheme whereby it contributes 15% and employees contribute 7% of basic salaries for employees that were hired before the coming into effect of Proclamation No. 715/2011, Pension of Private Organisation Employees, on 24 June 2011. These contributions are held in the individual's savings accounts in the Bank. All other employees' benefits are in accordance with the Labour Proclamation No. 377/2003 as amended by Labour Amendment Proclamation No. 494/2006. Eligible staff also benefit from Housing Loans.

#### 23. COMPARATIVE FIGURES

To facilitate comparison, some of the previous year's figures have been reclassified in these accounts.
